

# PROGRAM SPONSOR ALERT

Date: January 11, 2011

Number: 11-01

Updated – August 3, 2011

Subject: Program Sponsor Responsibilities-Updating Contact  
Information Electronically

## Summary

In order to provide important information in a timely manner the Commission attempts to communicate directly to the Dean, Superintendent, Director of Education, or other designated individual through email, US mail, and coded correspondence. Each institution is responsible for keeping the contact information in the Commission's approved program sponsors' database current.

## Background

As updates are made to program standards or credential requirements, the designated contact is notified through email. When official actions are taken about the institution/program sponsor, the President or Superintendent is notified through US Mail, with a copy to the designated contact person. Lastly, when a new Program Sponsor Alert (PSA) is posted on the Commission webpage an email is sent to all Deans and Directors of Education to notify them of the new posting. Therefore, accurate names, mailing addresses, and email addresses are critical for the delivery of this information.

Additionally, as initial program documents and Program Assessment documents are reviewed it is helpful to have the coordinator contact information up to date through the review and approval process.

Institutions must update their information directly through the Commission's webpage when a change in personnel or contact information occurs. See appendix A for instructions on updating contact information through the Commission web page.

### Updating Your Contact Information for the Commission:

Your organization (college, university, school district, county office of education, or other entity) sponsors one or more educator preparation programs. In an attempt to utilize technology and ensure that the Commission has current contact information, the Commission is implementing a process where **all approved institutions** will be responsible for updating their **contact information**. The following webpage is available to the public. Some of the information you enter into the database will be displayed on this web page: <https://info.ctc.ca.gov/fmi/xsl/ProgramSponsors/recordlist.xsl>.

When we send information to a program sponsor, we send it to the 1) Dean, 2) Associate Dean, and/or the 3) Director of Teacher Education, if we have those email addresses. So it is critical that this information is accurate.

When official actions are taken about an institution, the President or Superintendent is notified through US Mail, with a copy to the designated contact person. Therefore accurate names, mailing addresses, and e-mail addresses are critical. The contact information will not be posted on the public web page for President or Superintendent.
